INSERT:

"With Tucson Electric Power Company's rate-case forthcoming, it is important to maximize the number of customers who understand how they can manage their energy use and utility bills. In designing and implementing the Home Energy Reports program Tucson Electric Power Company shall, on a default basis, automatically enroll as many customers in the HER program as is cost-effective in order to maximize the reach of the program and ensure savings from the program are verifiable through industry best practices. Customers shall be allowed to stop receiving reports if they inform the company of this desire."
